

The **Northern Netherlands Plastic Foundation** wants to work in an action-oriented way to stimulate a **healthy world** in which we handle plastic and packaging in a responsible manner. We work together with citizens, companies, schools and universities. We take up this ambition with pleasure, we are realistic and down to earth.

NNPF

We start in **Groningen**, the Northern Netherlands, together with everyone who wants to promote a **clean nature** and a **circular economy**. Our goal is to create a fundament for a **future proof society!**

#### What does NNPF do?

- Compose unique teaching packages for all ages
- Organizing clean-up actions in the Northern Netherlands
- Set up challenges that everyone can participate in
- Provide a guideline - Plastic, how do you deal with it?
  - Empower small initiatives

#### What do we stand for?

- Awareness
- Action
- Connection
